MISSION STATEMENT

We dedicate ourselves to the advancement of education through teaching, scholarship and service to society by providing an all-round education in an atmosphere of freedom and responsibility, creating a culture of continuous improvement, fostering high moral standards and developing a spirit of service and respect for others.

VISION STATEMENT

To become a leading outcome-driven entrepreneurial research University by translating our excellence into major contribution to culture, economic well-being and quality of life.
AIMS OF STRATHMORE UNIVERSITY

The University is owned by the Strathmore Educational Trust, a non-profit making organisation.

The aim of the University is to provide an all-round education for its students in an atmosphere of freedom and responsibility. Admission to the University is granted to all deserving students regardless of their background. This is reflected in the University motto -Ut Omnes Unum Sint-That All May Be One.

The University is interested in helping students develop not only their academic potential, but also all their other capacities and abilities so that they may become mature and responsible citizens.

The University respects the freedom and ideas of individual students. However, in order to maintain academic standards and a high level of discipline and moral values, some regulations have been formulated and students are required to comply with these regulations.

The spiritual guidance is entrusted to Opus Dei, a Prelature of the Catholic Church. Opus Dei was founded in 1928 by Saint Josemaría Escrivá. He used to teach the message that everyone can reach sanctity, human and Christian perfection in their ordinary work. In this context, care for detail, work well done, service to others, respect for the dignity of persons, and ethical conduct, are crucial as shown in the day-to-day life of Strathmore.

The Three Hearts represent the three races which, in 1961 when the University started, were segregated in the colonial system of education. The heart represents the person, since it is taken as the source of all our actions, and the source of love. The fact that the three hearts all have the same colour shows the equality of all people and their aim to love and understand each other. At the beginning it clearly pointed at the target of racial unity. Today it symbolises the common aim of parents, teachers and students in the educational process of Strathmore.

The Rose in full bloom represents love, the source of all good desires and actions, even if at times this means loving sacrifice, as represented by the thorns. The rose has a supernatural meaning too. Love, with capital letters, is love of God. The rose also has a historical meaning associated with the life of Saint Josemaría Escrivá, founder of Opus Dei, who inspired and encouraged the people who started Strathmore: he once received a divine sign in the form of a carved gilded rose in a very trying moment of his life.

The Motto “Ut omnes unum sint” is Latin. It is a quotation from a passage of the Gospel, and means “That all may be one”. It expresses our desire to work together towards the same aim, in spite of personal differences or opinion, tastes and backgrounds. The colours in heraldry (the science dealing with coats of arms) have associated meanings as follows:

**Yellow:** (Gold) Gold means eternity, perfection.

**Blue:** (Azure) Sky blue means high ideals, high aims.

**Red:** (Gules) Blood red means sacrifice, love, fortitude.

The Lion is the symbol of strength and courage, and of the determined fight for excellence and justice. It also represents Kenya, our country, which strives to attain all the qualities mentioned above.
Saint Josemaría Escrivá
Strathmore University is a centre of excellence admitting only those students who pass a rigorous entrance interview. Each student is thereafter provided with an academic mentor to help him/her make the best use of his/her abilities and of the facilities offered, managing study time etc.

The University is divided into the following main academic departments:

- Strathmore Business School (SBS)
- Faculty of Information Technology (FIT)
- School of Humanities and Social Sciences (SHSS)
- Strathmore Institute of Mathematical Sciences (SIMS)

Academic Leave

An academic leave is requested by students who wish to withdraw from the current semester, or who do not wish to attend future semesters. For students with multiple degree or professional programmes, academic leaves of absence are only granted for individual programmes.

Students should review all possible ramifications of taking an academic leave. Students are encouraged to check with all other appropriate University offices (e.g. Financial Aid Office, Dean of Students etc) to determine how taking an academic leave impacts their status with these offices. Students on academic leave are not registered and, therefore, do not have the rights and privileges of registered students. They cannot fulfill any official University requirements during the leave period.

Applying for Academic Leave

a. A student can apply to take academic leave during their period of study of up to one year for on-going medical or personal reasons. Personal reasons include, but are not limited to, financial reasons.

b. If a student wishes to apply for academic leave, they must make an application to the School Dean for approval. The application must include a description of the circumstances, together with any directly relevant evidence.

c. The cumulative period of academic leave that may be granted during an entire study period is one year.

d. Following a period of academic leave, a student should normally start their studies at the beginning of the equivalent semester in which the academic leave commenced. A student may re-commence their study at a different point if this is considered the most appropriate timing for them to re-join the Programme. This will be decided on a case-by-case basis and the rationale for the timing will be documented.

e. Where the teaching for one or more Modules has been completed at the point of taking leave, a student may apply to complete the assessments for that Module during the period of interruption. This will normally only be permitted where the nature of the student’s circumstances leading to the academic leave would not affect their performance in the assessments. Where the student is permitted to sit assessments during the leave period, they must attempt all the assessments for Modules for which teaching has been completed.

f. Where a student has retake examinations outstanding at the start of the academic leave, they may apply to attempt those retake examinations during the academic leave. Where the student is permitted to sit retakes during the academic leave, they must attempt all retake examinations that are outstanding.
g. If, following a student’s taking academic leave, the University has made changes to that student’s Programme and/or the availability of particular Modules, the University will ensure that students who have taken academic leave are fully informed of the changes and the implications for their studies prior to their return to the Programme.

h. A student who has had a break in his/her Programme and returns to the University to complete the Programme will be governed by the Regulations and any statutory and legal requirements in force at the time of re-entry to the University.

**Student Status While on Academic Leave**

**Academic Status**

Students on an approved academic leave retain their admitted student status; however, they are not registered and therefore do not have the rights and privileges of registered students. Students on leave may complete course work for which an ‘Incomplete’ grade was reported in a prior semester.

Degree programmes and candidacy must be valid in the term of re-enrollment. Leaves do not delay candidacy or master’s program expiration dates. Failure to return as scheduled or to secure an extension of a prior leave will result in cancelation of registration privileges.

**International Students**

Study Passes for International students will not be renewed during the academic leave period. Renewal shall be done upon resumption of studies.

**Financial Aid**

Students on Financial Aid of any kind should notify the Financial Aid Office of their intent to leave the University if they are receiving any type of aid, particularly to protect eligibility for certain programmes and funds while on leave.

**Loans**

Students must notify all lenders of their intent to go on academic leave and request exit information before leaving the University. Students are cautioned to consider carefully the effect of leaves on their loan status; lenders may count the leave period as part of the total grace period.

**NOTE**

Should a student miss classes for more than 30 days, he/she shall be considered to be on an Academic Leave and the student will be liable for any consequences that will arise from such an action.
Scholarships, Loan Scheme and Rebates

Scholarship

Our ideal is that no deserving student should fail to get a place in the University owing to lack of financial means; the University has, therefore, over the years sought the assistance of private and public institutions, as well as individuals, to contribute to the bursary scheme. As a consequence, the University runs a scholarship and bursary scheme for needy students. A sizeable proportion of students have been able to benefit from it.

Some Scholarships are available every year through the generous help of past students and other benefactors. These are awarded to academically deserving and financially needy students.

For more information on scholarships please visit the Financial Aid office or email financialaid@strathmore.edu

Loan Scheme

Strathmore-Student Loan Scheme

Strathmore University offers student-loans to the financially disadvantaged students to pursue degree studies at the University. The full-tuition student loans offered have enabled low-income talented students to study at Strathmore stress-free.

If, after one of the brothers/sisters withdraws, only one brother/sister remains registered as a full-time student, he/she will no longer qualify for tuition fees benefits.

Any changes made by the Academic Council regarding rules and regulations governing student conduct are subject to the confirmation of the University Management Board and be binding to all students with immediate effect and forthwith.

For the purposes of these Rules and Regulations, a student is any person who has registered, and is currently undertaking a course of study, whether full-time or part-time, in Strathmore University.

Application and Scope of the Rules and Regulations

These Rules and Regulations are binding on all registered students of Strathmore University from the time that they register as students until such time as they discontinue, or are discontinued from, their studies and are deregistered, or until they have graduated and been awarded the degree, diploma, certificate or other qualification for which they have been studying. Registered students are expected to abide by these Rules and Regulations at all times, when in academic session as well as during holidays, both on and off campus.

This Policy also applies to the off-campus conduct of students and registered student organizations in direct connection with:

Enforcement of the Rules and Regulations

University Student Disciplinary Committee, Departmental Boards, Faculty Boards, either directly or through their Executive Committees, have the duty and responsibility of ensuring that the Rules and Regulations are followed and enforced at their respective levels. Major disciplinary decisions, such as expulsion or suspension for one year or more, made by the University Student Disciplinary Committee require confirmation of the Academic Council.

Students who fail to adhere to these rules and regulations will be issued with a Warning Letter, suspended or expelled according to the gravity of the matter. If the behaviour of the student does not improve thereafter having been warned previously, or if the matter is very serious, he/she may be expelled.

Student Disciplinary Policy and Public Law

Students continue to be subject to county and national laws while at the University and violations of those laws may also constitute violations of this Policy. In such instances, the University may proceed with disciplinary action under this policy whether or not civil or criminal proceedings have been instituted against the student and may impose sanctions for violations of the policy independent of any criminal or civil penalties that may be ordered. Any proceedings initiated through the University’s Student Disciplinary Policy will not be abandoned or withdrawn solely on the grounds that the criminal or civil charges have been dismissed or reduced, nor will the disciplinary proceedings be delayed pending the outcome of the criminal/civil charges.

Strathmore University operates in accordance with Christian principles of faith and morality. These principles inspire and guide all the activities of the University and its relationships with students, employees, parents, clients, partners, collaborators, and the community at large, on and off campus. All students are expected to support, respect and comply with these principles.

The University’s educational policy fosters the following core values: freedom and responsibility, respect for the dignity of others, respect for other peoples’ opinion, mutual trust and honesty, sincerity, sense of justice and concern for the well-being of others, mutual understanding and forgiveness, openness to fraternal correction and constructive suggestions for improvement, spirit of hard work or industriousness, spirit of service towards others, among other human virtues.

The University appreciates that its standards of conduct may at times exceed those the society expects of its citizens; however, we do not intend to shape the behaviour of students by means of this code. It is hoped that this code will provide Strathmore University students with a way of self-monitoring of their personal development while pursuing their academic and professional aspirations at the University.

Academic Offences

Conduct by any member of the University community that adversely affects this relationship or this process must, therefore, be considered a serious offence.

The above list is not exhaustive and therefore all other Rules and Regulations governing student conduct in and class and during examinations as specified in the University Statutes and other approved sources shall apply.
Student attendance policy

Preamble

Strathmore University recognises that student success is promoted by regular attendance and participation in class. It is the sole responsibility of the student to ensure that they fulfil the attendance requirements for classes they are enrolled for. This policy applies to all modes of course delivery.

This policy has been developed as part of the University’s overall Student Attendance & Engagement Strategy which aims to provide a supportive learning environment of which student attendance is one aspect of overall engagement.

The University needs to be able to monitor the attendance of students at timetabled teaching sessions for the following reasons:

a. To aid the retention of students by allowing early identification of those students at risk and allow timely interventions to be made in terms of academic and personal support.

b. To comply with the requirements of the various Scholarship providers who require attendance confirmation returns to be made on a regular basis for those students who are in receipt of financial support.

c. To meet the demand placed on the University to report absences to employers, Professional Statutory Bodies, or other sponsors where they are funding/co-funding course fees.

d. To comply with the security laws of the Kenya Government that requires us to monitor the attendance accurately.

Key Principles:

- Students are active participants in their learning experiences and must take responsibility for achieving their potential through successful completion of each stage of their studies.

- Monitoring attendance can provide an indication of student commitment, motivation and any difficulties which need to be addressed.

- Regular attendance and academic achievement are closely linked. Students who regularly attend classes are more likely to enjoy a rewarding experience in which core skills and abilities, such as team-working, are developed.

- Attendance is a key component in student retention, progression and achievement.

- Developing employability attributes - e.g. workplace skills and professional ethos

Faculties and Schools will ensure that effective mechanisms are in place to both identify students considered to be at risk and offer appropriate support and guidance.
**Student Responsibilities:**

Students are responsible for:

1. Regular and punctual attendance of all timetabled learning/teaching sessions associated with their programme of study and ensuring they have their attendance recorded.

2. Notifying their School/Faculty Course Administrator/Faculty Manager in advance (e.g. in person or email) that they expect to be absent from timetabled classes.

3. Notifying their School/Faculty Course Administrator/Faculty Manager in respect of any unplanned or unforeseen absences from classes as soon as practically possible.

4. For absences lasting more than 5 days, submit a proof of the reasons e.g. a medical certificate to their School/Faculty Office or any other authentic proof.

5. Ensuring that they check their AMS (Academic Management System) account on a regular basis to keep track of their attendance.

**Academic Staff Responsibilities:**

Academic Staff are responsible for:

- Reminding students of the importance of attendance at learning and teaching sessions.
- Taking a manual note of attendance and keying in student attendance electronically into the AMS.
- Identifying students who frequently absent themselves from lectures to their School/Faculty to allow timely interventions to be made in terms of academic and personal support.

**Course Administrators/ Faculty Managers Responsibilities:**

Course Administrators/ Faculty Managers are responsible for ensuring that:

- Regular reviews are undertaken of attendance/absence data and ‘non-attending’ students are identified to allow timely interventions to be made in terms of academic and personal support.
- Appropriate systems are in place at the Faculty/School level for students to provide notification of planned absences or report any unexpected absences.
- Data is reviewed for patterns of student non-attendance and where appropriate referring students to their Mentor for discussions on reasons for pattern.
- In the case of the absence of a member of teaching staff, students are informed at the earliest opportunity of the alternative arrangements for the class.

**Student Fraud:**

- Students must only record themselves as present at a learning/teaching session. Where students are identified as having fraudulently recorded the attendance of another student in their absence, then
both parties will be held liable at the faculty disciplinary committee.

- Students are reminded that it is forbidden and also punishable to ask lecturers to alter their attendance record when they have unauthorised absences.

**Authorised Absences:**

- An absence is classified as authorised when a student has been away from lectures for a legitimate reason and the Faculty/School has received notification from the student/parent or guardian. Only faculties/schools can make an absence authorised.

- The maximum authorised absences will not be more than 33% of the total number of class meetings (not including the final examination period) for the specific course or courses in which the student currently is enrolled.

The University’s list of authorised absences for all students includes the following:

1. Late registration for a unit. (unauthorised late registration will not be considered)
2. Attendance of significant events involving the immediate family (e.g., funerals, weddings.)
3. Participation in special academic events (e.g., conferences, field trips, project competitions, interviews)
4. Participation in official university business (e.g., student representatives attending meetings related to the university)
5. Documented serious illness or disability (see below how to document).

**Submission of Documentary Evidence:**

- Documentary evidence is required for any significant absence. Documentary evidence should be submitted in person or sent via email to the Course Administrator/Faculty Manager.

- It is the responsibility of the student to go to the Faculty/School and request for the absence from lecturers form and attach all original documentation and submit it to the Course Administrator/Faculty Manager.

- Suitable types of medical documentation include:
  1. A medical certificate
  2. A medical report from an authorised doctor.
  3. A note from a hospital.

**Absence due to Mental Health Concerns.**

- The University Clinic will use clinical judgment as to whether there is a legitimate need for the student to miss class for reasons related to mental health. If in the judgment of the University Psychologist, the student should be out of class due to a mental health condition, the psychologist will issue a written release of information from the student.

- With a signed release, the psychologist may then contact the
Dean of Students, who may contact faculty accordingly.

- Should a student be visiting an external mental health hospital and would like to be excused from class or an examination, he/she will MUST provide the University Clinic with proof of treatment, thereafter the university clinic will verify the same before issuing a confirmation and sick leave note to the faculty/school.

- If the duration of the absence due to serious medical illness or mental health concern undermines the student’s ability to complete the academic work required, the appropriate Course Administrator/Faculty Manager will encourage the student to pursue a Medical Leave of Absence – see policy on Academic Leave.

- It is an offence against honesty for a mentally healthy student to purport to have been mentally unwell sometime in the past so as to get an unauthorised absenteeism validated as authentic. Students caught attempting to cheat in this manner shall be disciplined.

A student who is absent for more than 33% of class lectures and assessments without a valid reason will be excluded from the final examination in that subject.

**STUDENT DISCIPLINARY PROCEDURES**

**Preamble**

Strathmore University operates in accordance with Christian principles of faith and morality. These principles inspire and guide all the activities of the University and its relationships with students, employees, parents, clients, partners, collaborators, and the community at large, on and off campus. All students are expected to support, respect and comply with these principles.

The mission of the University can only be accomplished if every member of the University strives for personal and academic integrity. This disciplinary procedure aims to promote conducive and pleasant environment for quality teaching and learning, maintain good student relations within the University, encourage students to achieve and maintain the appropriate standards of human conduct that the University expects of all its members.

Every student must take responsibility for his conduct and must bear the responsibility for his misconduct whether this misconduct takes place in a group or as a member of a group. The goal of this procedure is to ensure fair and orderly proceeding on matters of possible student wrong doing. The University does not intend to shape the behavior of students by means of this code.

The University student disciplinary proceeding is distinct and differs from the proceeding of a court of
Law. The students facing a disciplinary procedure do not abdicate their civil rights and remain free to exercise and claim those rights through the society’s judicial institutions. However, the University is a private entity committed to a mission that imposes additional and special obligations, and at the same time grants privileges to its members.

Student misconduct therefore may be simultaneously subject to external legal or administrative proceedings and the University’s disciplinary system. Under those circumstances, the University’s disciplinary system normally will proceed independently notwithstanding the pendency of external processes. Furthermore, University disciplinary committees are not bound by external findings, adjudications or processes, and thus they make independent judgments about the extent to which (if at all) to consider such matters.

The University’s disciplinary procedures therefore should not be confused with the processes of law: the University’s regulations are applied to incidents that are not “cases,” the bodies that hear and dispose of incidents are not “courts,” individuals who may accompany a student in the course of a disciplinary proceeding are not “counsel” advocating on behalf of the student and scrutinizing procedures for compliance with “rules of evidence,” and requests for review of disciplinary decisions are not “appeals.” As a leading illustration of the sense of this statement, it should be understood that the relation of collegiality and trust that binds all members of the University community entails an obligation of truthfulness and candor on the part of everyone who participates in a disciplinary proceeding. An accused student, the accuser, and others must appear before a disciplinary committee if summoned and participate in a manner that helps the committee reach a complete and fair understanding of the facts of the incident at issue.

1.1 Disciplinary Officers

(a) The members of staff of the University listed below constitute the Disciplinary Officers. With respect to matters coming within this Code, such Disciplinary Officers have only the powers, duties, and obligations expressly conferred upon them in this Section or in any other Section of the Code, as well as any powers reasonably incident thereto:

i. The Vice-Chancellor
ii. The Deputy Vice-Chancellor (Academic and Student Affairs)
iii. The Principals of Colleges
iv. Dean of Students
v. The Deans of the various Faculties, Schools and Institutes
vi. The University Librarian
vii. Head of Academic Departments/Units
viii. The Catering Manager
ix. Games and Sports Officer
x. Faculty Managers and Faculty Administrators
(b) Any Disciplinary Officer listed above may expressly deputize one or more members of his staff to be the Disciplinary Officer acting on his behalf. The name of the deputy shall be communicated in writing to the Dean of Students and such notice shall include the terms of deputization.

(c) In exceptional circumstances when the Disciplinary Officer has reasonable grounds to suppose that there is a high degree of physical danger in the student’s presence on campus that cannot be alleviated or remedied by normal means, the Disciplinary Officer may exclude the student from campus for as long as reasonably required by the nature of the danger. However, within a reasonable period of time, the Disciplinary Officer must obtain the approval of the Student Disciplinary (SD) Committee. If the exclusion is approved, the Dean of Students shall advise the excluded student of his right to a hearing and shall arrange for a hearing at the student’s request within ten working days from the approval.

(d) Every member of the teaching staff who is in the process of giving instruction shall have like powers of exclusion on like grounds with respect to students under his instruction, except that such exclusion from the place of instruction shall not exceed the remainder of the class period.

(e) The chief or senior invigilator at an examination shall have like powers of exclusion over any student undergoing the examination when the chief or senior invigilator has reasonable grounds to believe that the student is breaking, has broken, or is attempting to break a University or Faculty examination regulation. Such exclusion from the place of examination and its vicinity shall not exceed the remainder of the examination.

(f) The Librarian shall have like powers of exclusion on the same grounds over students using the library.

(g) Any action taken in virtue of sub-articles immediately above c, d, e, f, shall be forthwith reported to the Dean of Students.

The designated Disciplinary Officers of Faculties, Schools, Institutes and Centers, have hearing powers as prescribed in the Strathmore University Statutes.

Appearance at and Participation in all Proceedings

If a student, having been provided with written notice, fails to appear at a hearing or meeting as described in this policy and fails to produce an explanation acceptable to the responsible committee/hearing officers prior to the hearing/meeting, the hearing committee/hearing officers may conduct the hearing/meeting and impose sanctions in the student’s absence.

Alternatively, the hearing committee/hearing officers may place the
student on indefinite suspension or probation without hearing the evidence for the failure to appear. In such cases, the student must submit to the responsible committee/hearing officers a written explanation for his/her failure to appear. The responsible committee/hearing officers will consider the explanation and decide whether or not to reconvene the hearing/meeting, and whether or not to leave the suspension or probation in place pending the hearing. If the hearing is reconvened, it shall be considered the original hearing and shall not affect the right of appeal. Further sanctions may be imposed upon a student for refusing to appear or cooperate in that hearing.

**Compliance with and Successful Completion of all Sanctions:**

A student is responsible for compliance with and successful completion of all disciplinary sanctions imposed. Failure to do so may result in further disciplinary action. The person/responsible committee charged with monitoring the student’s compliance with any sanction reserves the right to develop substitute sanctions when the student does not meet the conditions outlined in the sanction(s) previously imposed.

**Tampering with the Conduct Process**

Students should not take any adverse action against the complainant and/or the witnesses or threaten or intimidate the complainant and/or witnesses as a result of their participation in any student conduct proceedings. If a student is found to have taken any adverse action against a complainant or witness, he/she may be subject to further disciplinary action.

**HEARING**

**Hearing Guidelines** – Conduct hearings are non-adversarial, fact-finding proceedings. It is the responsibility of the hearing committee/hearing officers to ask all relevant questions, to determine the admissibility and relevance of all materials, to render decisions based on the materials, and to impose sanctions where appropriate.

**Objectives of the Hearing** - Requisite levels of due process and fairness will be provided to all participants during these procedures. The hearing shall have the following objectives:

1. Inform the student of the charges;
2. Give the accused student an opportunity to respond to the charges;
3. Determine the facts of the case;
4. Determine if any violations of the Student Disciplinary Policy were committed.
5. Determine the disciplinary actions to be imposed based upon the facts, as determined at the hearing.
APPEALS

Appeals are not re-hearings and will not be granted based on a student’s or complainant’s disagreement with the outcome. Appeals will be granted on substantive grounds as will be determined by the appellate office. For student who appeared before the University Student Disciplinary Committee, the student concerned or the complainant may appeal to the Vice-Chancellor the decision of the Disciplinary Committee as it pertains to the substantiation of the charge, the disposition chosen, or both. The Vice-Chancellor may at his/her discretion appoint an Appeals Committee consisting of three members of Academic Staff to hear the appeal.

A student wishing to appeal must notify the Dean of Students of the intention to do so within 14 days of receiving official notice of the Disciplinary Committee’s decision. The notice of appeal must be accompanied by a concise written statement that identifies precisely the grounds upon which the appeal is based.

No suspension, dismissal or expulsion ordered by Disciplinary Committee shall take effect until the appeal is decided. However, if the appeal is denied, dismissal or expulsion is retroactive to the date of the original decision, and the suspension shall take effect from the date of the Appeal Committee’s decision. If the Appeal Committee upholds the decision of the Disciplinary Committee the matter shall be closed and such decision shall be considered final.

b) Have attended two-thirds of the classes
c) Cleared fees in full 7 days to the start of the examinations.

2. Continuous Assessment Tests (CATs)

   • In case of a doctor's appointment/visit, the student should provide a sick sheet from the doctor
   • In matters related to attending the various clubs and sports activities recognized by the University, the student should seek clearance from the Dean of students prior to attending the activity.
b) If the above procedure is not followed, it will be assumed that the student has failed the CAT or the quiz in question and hence forfeit the marks.
c) There are special answer sheet to be used in CATs and students should not carry books, papers and other personal belongings to the exam venue. The answer sheets should be used strictly for this purpose and any unused sheet should be returned to the examinations office. Students should not walk out with unused answer sheets at the end of the CAT.

3. Examinations Timetable

Students shall be informed of the examination timetable no less than two weeks before the examinations are scheduled to begin. All students should produce their examination card and university ID as they enter the examination venue.

A candidate who for serious reasons such as medical or compassionate grounds cannot sit a given retake examination when offered shall retake the unit when next offered. The rules governing retake examinations apply.

6. Special Ordinary Examination

Special Ordinary Examinations shall normally be offered on medical grounds and compassionate grounds only. Candidates shall apply to the Registrar (Academic) for special ordinary examination before the date of the examination. Such candidates will retake the exam at a suitable time when the unit(s) is (are) next offered and earn full marks.

c) Candidates do not apply for a special ordinary examination on the unit(s) failed or performed poorly.

7. Repeat

Power Outage

If there is a power failure, candidates should remain seated, stop writing and wait for further instructions from the invigilators.

Candidates will continue with the examination, if power failure lasts less than 10 minutes. The examination time will be extended by the length of the power failure.

If the power failure lasts more than 10 minutes, the invigilators will collect the examination scripts and terminate the examination. The students will remain seated as the examination scripts are collected after which they will leave the venue with their personal belongings.

The invigilators will account for the examination booklets within 24 hours if the power outage also affects Examinations Services; otherwise the booklets should be accounted for as soon as the examination ends.

Threat to Safety

If there is any threat to physical safety and security, such as an explosion or fire etc, the examination will be terminated and all candidates and invigilators will be required to vacate the examination venue.

Candidates will take their personal belongings and leave all examination materials on their desk. The invigilators will collect the examination materials as soon as an appropriate authority has declared the venue safe.

The invigilators will account for the examination booklets as soon as possible.

In the case of both power outage and threat to safety, if the disruption occurs after three-quarters of the examination period has lapsed, the internal examiner will mark the students’ scripts and award marks appropriately; otherwise the examination will be rescheduled. The internal examiner will write a report to the Dean explaining how the marking and grading was done.
Communication

The invigilators should write a report to the Examinations Manager and the Dean explaining the disruption and the outcome. This should be done within 24 hours.
